

Protect What Sustains Us All

Fit for a King photograph by Ann Darlington

“The magic of **Point Breeze** is not only the beautiful old trees but it’s rich historical significance. D&R Greenway Land Trust has restored the Joseph Bonaparte gardener's house as a Discovery Center along with a period garden that shares produce to feed people in the local community.”

Your Donation’s Impact

- Close to 23,000 acres protected across more than 330 preservation stories...
...**YOU** can help us reach our next milestone
- Historic landscapes, farms, and waterways safeguarded for people and wildlife
 - Repairing and restoring vital habitat and native plant species to sustain biodiversity and resilience

Urgent action is needed to preserve key parcels and connect our greenways before they are lost forever.

Angel of the Grasslands photograph by Rebecca DePorte

“Observing the short-eared owls at **Cider Mill Grassland Preserve** was such a treat. Looking like angels, I marveled at their beauty and skills.”

Dry Run Creek Preserve
photograph by Dave Burwell

“This was my first visit to **Dry Run Creek** and I was happy to find a very well-maintained trail through a beautiful, mature deciduous forest!”

"I came home and found a bag of fresh produce next to my door. I've been getting prepared meals and vegetables every week. I'm no longer hungry every day."
- Disabled veteran benefitting from produce that is supplied to **Bordentown’s food pantry from D&R Greenway’s Garden at Point Breeze**

Our Mission

To Preserve & Care for Land and Inspire a Conservation Ethic — Now and Forever.
Every acre we protect, every trail we open, and every habitat we restore reflects our shared promise to future generations.
